APPLICATION FOR ARCHITECTURAL REVIEW

TO: [ASSOCIATION NAME], c/o [MANAGEMENT COMPANY OR ASSOCIATION OFFICE]

RE: Request for approval of an exterior modification, addition, or alteration

QUESTIONS ABOUT THE STANDARDS THAT APPLY TO YOUR PROJECT: [CONTACT NAME AND ROLE]

Deliver the completed application and all attachments to the address above.

READ THIS BEFORE YOU START

A. **Do not begin work until you have written approval in hand.** Work that starts before written approval is at your own risk. You may be required to modify or remove it at your own expense.

B. Verbal approval from a director, a committee member, a manager, or a neighbor is not approval. Approval exists only when it is in writing, signed, and delivered to you.

C. **Approval by this association is not a permit.** You remain responsible for every county and municipal permit, inspection, code requirement, setback, easement, and utility clearance that applies to the work.

☐ Construction of a structure or other improvement, such as a room addition, pool, deck, screen enclosure, fence or wall, driveway, or roof.

☐ Not sure, please advise.

If you checked construction of a structure or other improvement, skip the visibility question below and go to Section III. Construction is reviewed under the governing documents whether or not anyone can see it. Not being visible does not take a structure or an improvement out of review.

If you are installing, displaying, or storing an item, answer this: is any part of the item visible from the front of your property, from an adjacent property, from an adjacent common area, or from a community golf course?

☐ Yes ☐ No ☐ Not sure, please advise

If you answered yes, or you are not sure, complete the rest of this application, starting at Section III. The committee will tell you if no approval was needed.

If you answered no, and you checked homeowners' association above, describe the item on the lines below, submit the completed application so the association has a record, and continue with your installation. No approval is required for that item.

If you answered no, and you checked condominium or cooperative above, the visibility answer does not end the review. Complete the rest of this application, starting at Section III.

WHAT THIS REVIEW COVERS

The committee reviews this application against the appearance and location standards in the governing documents and the published architectural guidelines. It does not review the work for structural adequacy, engineering sufficiency, code compliance, water intrusion risk, fitness for purpose, or workmanship, and it does not employ or supervise your contractor. Approval means the proposal is acceptable under those standards. It is not a representation that the design is sound, that the work will be done well, or that it complies with any building code. Nothing in this form waives, and nothing in it enlarges, any right the owner or the association has under the governing documents or Florida law.

FOR ASSOCIATION USE ONLY
